Empowerment through Knowledge

CCTV TRAINING

SAVE Book both CCTV Courses together and pay R 8 100	CCTV: MODULE 1 (INTRODUCTION TO CCTV)				
	Pre-requisites: Basic computer knowledge				
	NITC	Day 1:	Theory:	Direct current, alternating current, semi-conductors	R 3 880.00
		Day 2:	Theory:	CCTV terminology, methodology, how to do a professional quote	
		Day 3:	Theory:	Installations tips, law regarding installations, pricing and sales techniques	
			Practical:	Tool uses, cameras set-up, check list, basic fault-finding, doing CCTV quotes	
	CCTV: MODULE 2 (MASTERING CCTV)				
	Pre-requisites: CCTV: Module 1 or 1 year Installation experience				
	MSC	Day 1:	Theory:	Terminology, design, configuration, light importance and lens selection	R 5 150.00
				High-speed domes, video processing equipment and digital video recorders	
Day 2:		Theory:	Modes of transmission types, Dahua, hybrid- and mobile DVR and accessories		
			Practical:	Embedded digital video recorders installation, set-up and run	
Day 3:		Theory:	Dahua advantages, advanced features & setup		
		Practical:	High-speed dome setup, connection to embedded & control features		
Day 4:		Practical:	Dahua installation and setup		
		Practical:	High speed dome connection to Dahua and operation		

General Training

SAVE Book Gate and Garage, Electric Fence and Alarm systems Courses together and pay R 5 600	Gate & Garage Automation				
	Pre-requisites: None				
	GGM		Theory:	Introduction, terminology, installation, programming and functions	R 2 620.00
			Practical:	Fault-finding, connecting other equipment	
		MOD 1	Basics	We cover the install and configuration of D2, D5 CP80, D5 evo and centurion garage door operators	
		MOD 2	Advanced	We cover the install and configuration of A10, D5 smart, vector swing gates and accessories like remotes and G-ultra	
	Electric Fencing				
	Pre-requisites: None				
	EF	Day 1:	Theory:	Introduction, uses, different brackets, accessories and wires, Energiser and setup, Networked Energizers for Control Zoning, Solar Power for the Electric Fence, The new Electric Fence Law and how to register and become a Certified Electric Fence Installer, The Safety and Installation Requirements of the SANS standard & Compiling of BOM (Bill of Materials) for your installation.	R 1 780.00
	Alarm Systems (IDS)				
Pre-requisites: None					
ALA	Day 1:	Theory:	What is Intrusion and fire detection, The basic components of alarms for intrusion and fire detection, Installing alarms and fire detection (wired or wireless), Basic programming of the control panel,	R 1 780.00	
		Practical:	The essentials of By-Law 25, Checklist & Certificate of Compliance, Signing up a maintenance contract.		

PTO

Price List

Access Control				
Pre-requisites: Basic computer knowledge				
ACC	Day 1:	Theory:	Concepts of Access Control, access control architecture, remote connectivity option, hardware devices	R 2 620.00
	Day: 2	Practical:	ZK Teco operator functions, front desk operator, programming of tags	

IP Made Easy				
Pre-requisites: Basic computer & network knowledge				
IPME	Day 1:	Theory:	Intro to IP Made Easy, Basic Networking, Cabling and Wi-Fi, IP Cameras, Dahua DVR and NVR	R 1 310.00
		Practical:	Dahua NVR, Hybrid DVR and CMS, Hybrid, NVR-Kit, POE, Surge Protection, Fibre Networking	
Fibre Optics				
Pre-requisites: Basic computer & network knowledge				
FIB	Day 1:	Theory:	Intro to Fibre Optics, Types of Fibre Cable, Cable Losses, Installation Guidelines, Quote	R 1 310.00
		Practical:	Mock up of Ethernet Converters and Fibre Cable, Video & Data TX and RX mock up	
Advanced Networking				
Pre-requisites: IP Made Easy Course				
ANT	Day 1:	Theory:	RJ45 Connector with CAT5 & 6 cables, explaining a switch, IEEE 802.3af and 802.3at, Power class of switches and budget, SFP's and fibre single and multi mode, redundant layer 2 functionality, VLAN and setup, star and ring configurations, TCP/IP, DHCP & ports, Subnet, Multicast, QoS, SNMP, LAG – Port trunking, Netgear and switches	R 1 780.00
		Practical:	How to setup a Netgear switch, How to use the switch , Use extra functions like cable tester, Connect a star configuration setup & VLAN, LAG and QoS	

Understanding Wireless				
Pre-requisites: Basic Computer knowledge and Networks				
UWN	Day 1:	Theory:	Learning to understand when, where and why to use wireless	R 1 780.00
		Practical:	Setting up a Wireless link with PC and smart phone.	

Advanced Alarm Systems (Paradox)				
Pre-requisites: Alarm systems training or 1 year experience				
AAS	Day 1:		Magellan wireless products, Mg 5050, Spectra hardware products, Sp 6000, Practical and Video on programming the system	R 2 620.00
	Day 2:		Evo 192, Product Knowledge on Evo range, Paradox detectors, Practical and Video on programming the system	

AJAX Alarm Systems				
Pre-requisites: None				
AJAX	Day 1:	Theory	The basic components of alarms for intrusion and fire detection, Overview of AJAX components and remote software, How to design a wireless alarm solution with AJAX	R 1 780.00
		Practical	Setup and operation of AJAX devices, AJAX remote monitor and control software	

Solar Power Systems				
Pre-requisites: Basic Electronics knowledge				
SPS	Day 1:		Background on Solar Technology, Solar Systems, Electricity Basics, Solar PV Photovoltaic System, Portable PV system, solar home systems.	R 3 880.00
	Day 2:		Solar panel modules, solar charge, Regulator/Controller, Solar Batteries, Solar inverter, complete solar system.	
	Day 3:		Basic system sizing, typical power ratings, troubleshooting, anatomy of a multimeter, testing solar panel output, testing a solar panel's polarity, battery testing using a multimeter.
