

FLAT BAR BRACKET

Flat bar brackets are used to erect an electric fence and are supplied with insulators. Available in powder coated, hot dip galvanised, or a combination of both. The choice of a bracket should provide a good enough barrier to prevent a criminal from getting through or over the fence without triggering the alarm.

Features:

- Cost effective
- Covers double brick walls
- Easy to install
- All brackets are punched to insure uniformity
- Can be utilised on any type of wall
