Smart
INTERCOM KIT

Making Intercoms Great Again

With the Fluss Intercom, you're not just installing a device — you're giving your entrance a smart, modern upgrade. Say goodbye to complicated setups and hello to seamless visitor connections.

THE GREATNESS IN FOUR EASY STEPS

Here's how your QR Code Intercom transforms visitor access

- 1 MOUNT IT:** Pop the Fluss Intercom QR Board up at the access point (*gate, garage, door, boom*).
- 2 SCAN IT:** Visitors scan the Fluss Intercom QR code with their phone — no app required for them.
- 3 SEE & TALK:** A video call pops up on your device. Chat with your visitor from the couch, the office, or even halfway across the world.
- 4 LET'EM IN:** Get a Fluss+ device (sold separately) & tap to open up. It's like having a superpower for your entrance!

What Is In The Intercom Kit Box?

Everything you need to get started!
QR Board - various sizes available: A4 | A5 | A6

1 x QR Intercom board

The star of the show — your high-tech greeter. Made from durable 3 mm DIBOND ACM material. UV Coated to last long!

4 x Stand-off Pins

Tiny but mighty, these keep your board perfectly positioned.

4 x 5mm Wall Plugs & Screws

Rock-solid hardware for a secure installation.

Guidelines

Your personal sidekick to make installation a breeze.
